Hi Peter,

Hopefully, the board will be able to move ahead now and have some peace. I love the Q&A that was posted. I think outlining the parameters, relationships, and responsibilities of the board and the department will help anyone with a brain understand what the role of the District is.

While on the DOHFD Facebook page, I noticed the old web address is on there. I don't know who updates the FB page, but they might want to update that.

Maybe we'll be able to visit the board meetings again . . .

Thanks for your hard work.

Tim Wells
